History of virology Wikipedia

February 15th, 2019 - The history of virology "the scientific study of viruses and the infections they cause" began in the closing years of the 19th century Although Louis Pasteur and Edward Jenner developed the first vaccines to protect against viral infections they did not know that viruses existed The first evidence of the existence of viruses came from experiments with filters that had pores small

Smallpox Wikipedia

February 14th, 2019 - Smallpox was an infectious disease caused by one of two virus variants variola major and variola minor The last naturally occurring case was diagnosed in October 1977 and the World Health Organization WHO certified the global eradication of the disease in 1980 The risk of death following contracting the disease was about 30 with higher rates among babies
